Section C: Reading Comprehension

Life on the International Space Station (ISS)

Living in space is an incredible experience, but it isn't like a holiday. Astronauts have a very strict routine. Every day, they have to wake up at exactly 6:00 a.m. GMT. Because there is no gravity, they don't have to walk, but they do have to exercise for two hours every day so their muscles don't get weak.

Food is different in space. Astronauts don't have to cook elaborate meals; they usually just add hot water to special packets. However, they have to be very careful with crumbs, as floating food can damage the equipment. What about cleaning? Yes, even astronauts have to do chores! They have to clean the station, empty the rubbish, and check the machines regularly.

Read the text above and answer the questions. Use full sentences where appropriate.

1. What time do astronauts have to wake up?

2. Why do they have to exercise for two hours every day?

3. State one thing astronauts *don't* have to do, according to the text.

4. Why do astronauts have to be careful when eating?

5. Based on the text, do astronauts have to do household chores? Give two examples.
